

skyservice
air ambulance

Dear Milan,

Since 1989, Skyservice Air Ambulance Int'l Inc. has been providing unparalleled worldwide air ambulance transportation services. Always looking to improve our standards and remain at the head of our industry, we made the commitment to increase our fleet and purchase a pre-owned Learjet 45XR.

After carefully reviewing a number of potential options, we entrusted Milan with the mandate to source, negotiate and ultimately successfully deliver a pre-owned Learjet 45XR, which would meet our criteria.

We were taken aback with Milan's level of service.

Milan went more than above and beyond. From the standpoint of sourcing the appropriate aircraft, to negotiating the purchase agreement and providing invaluable insight and recommendations, to overseeing the pre-purchase inspection and finally to thinking outside of the box when it came to insuring the asset during its ferry flight; no stone was left unturned.

Milan's professionalism throughout this process was unsurpassed and we would definitely recommend him to anyone looking to purchase an aircraft with ease and reliance.

Yours truly,

Sam Cimone
President
