To Whom it May Concern:

It has been a pleasure working with Milan Rakic and I cannot thank him enough for his assistance through the acquisition process of our G-IVSP. He truly listened to what I wanted and needed in a new aircraft and was able to find the perfect match. Everything he did displayed his deep knowledge of the aviation industry, the highest professionalism and personal attention. He was there every step of the way guiding me and my team to make sure we were fully informed, and all information was transparent. He has gone above and beyond providing support not only during the purchase process but still continues to support us today. Milan builds and maintains his relationships with his clients, he's not just about making a sale. I can call and ask him about anything as he has been an invaluable resource to my flight department.

I highly recommend Milan and his company for aircraft acquisition services. Please don't hesitate to reach out to  personally or my team.

Sincerely,
